Options for Making a Payment

Most Child Support collections come from employer garnishments

What is a withholding order?

A withholding order is sent to your employer and requires them to withhold wages every pay period to pay your child support. The payment may include past due child support.

What if I don't want to have wages deducted by my employer? Is there another way I can pay my child support?

CSSD is federally mandated to send a withholding order when we are notified of an employer.

How soon after the employer receives the withholding order will the money come out of the NCP's paycheck?

The employer will start taking out payments no later than the first pay period that occurs after the employer receives the withholding order. They will send the payment within seven days of deduction.
